

## Evidence Question-6

Time: 30 minutes Total Marks: 30

1. Create a folder in your desktop name it with current date and your ID.
2. Create a MS Word file with your ID. Prepare the below content as like as below. Insert page margin according to Left=1", Top= 1.5", Right=0.5" and Bottom=1". Write down following sentences through justify alignment.

### ROOM PLANNER

With the **Room Planner**, you'll never make another design mistake. Created by acclaimed interior designers to simplify the redecorating process, this award-winning planning

tool incorporates elements of **color**, **dimension**, and **style** to guide your project.

It includes a furniture location guide; room grid; drawing tools; and miniature furniture, rugs, acces-

sories, and color swatches that match our large in-store selection. Here's how to use the planner to create the room of your dreams!

❖ The Formula:  $a^3+3a^2b+3ab^2+b^3$

3. Create a MS Excel file name with your ID. Prepare the result sheet below.

Student Name	ST_ID	Marks	Result
Joe	123456	59	
Jack	123457	70	
Smith	123458	60	
Ron	123459	90	
David	123460	71	
James	123461	69	
Average			

- Align Student Name column as Centre;
- Using appropriate formula, insert the word **Pass** or **Failed** in the **Result** column where 70 or higher marks is treated as Pass otherwise treated as Failed;
- Find out the average marks using appropriate function below the **Marks** column.
